

IPR Cell

The college has taken initiative to promote innovations & facilitate protection of Intellectual Property (IP). The college has IPR cell.

Innovation center is equipped with idea room. The students are guided for patent filling.

Incubation Center

The objective of incubation center is to create awareness about entrepreneurship and start ups. It offers the basic facilities needed to incubate the students and helps to build the confidence step by step. The cell organizes the interaction of students with successful entrepreneurs. The cell conducts the competition “YUKTI” to identify good business plans. Students also participate in the National level business plan competitions like KrazyBee & CK Birla Problem solving tests.
