

Advanced Teaching Learning Methods

Flipped Classroom

Students get the content material beforehand .This helps them to come prepared & have concepts reinforced. It provides better usage of interactive time with students.

Advantage: This approach guarantees student engagement, and with help available there is efficiency in the time spent on learning. It is especially helpful to slow learners.

Animated PPTs & PPTs

The power point presentation is a collection of individual slides that contains information on a topic. Visual explanation of a concept

Advantage: Empowers students to have an in depth understanding of the topic. It encourages deep reflective thinking.
