

Scenario Based Teaching Learning Method

Scenario-based learning (SBL) uses interactive scenarios to support active learning strategies such as problem-based. It normally involves students working their way through a storyline, usually based around an ill-structured or complex problem, which they are required to solve. In the process students must apply their subject knowledge, and critical thinking and problem solving skills in a safe, real-world context. SBL is often non-linear, and can provide numerous feedback opportunities to students, based on the decisions they make at each stage in the process.

Champion: Prof. Shruti Sekra

Commandos: Mr Jitendra Sharma (TE COMP)

Ms Arsia Shaikh (TE COMP)
